Sociology (SO) Courses

Taught Master's marks and grades

A summary of mark and grade outcomes for taught postgraduate Master's students on Sociology (SO) courses over the last 5 years, 2018-19 to 2022-23. Results for students at other levels of study or non-award programmes are *excluded*.

Absent and Incomplete grades are *counted*, while the related zero marks are *excluded* from mark aggregates. Resit results, with capped grades and marks, are *excluded*.

Grades are based on the Taught Master's Classification schemes.

For each course, **Histograms** summarise the Agreed marks from the *most recent* year; **Barcharts** present the outcomes in grades. One filled to show the proportion of results in each grade, the other of counts in each grade. **Box-plots** simplify the distribution into quartiles, divided by the median. Notches around the median indicate the margin of error around the measure. **ecdf** (empirical cumulative distribution function) plots indicate the proportion of results up to a given mark, or mark for a given percentile.

The two tables summarise the marks and grades for all results by year.

Any comments or questions are welcome.
